Holland Children's Movement CEO Responds to Nebraska Governor's State of the State Address

"The Governor's speech highlights his misguided approach to address the real issues impacting families in Nebraska. If he truly cared about supporting our workforce and middle-class families," said Holland Children's Movement CEO Hadley Richters. "He would make better investments in our state and community colleges, and job training programs, instead of handing out \$800 million in tax incentives to big corporations."

"Governor Ricketts should also focus on what he knows is top priority for voters and stop ignoring the will of the people to expand access to Medicaid," Richters continued. "But unfortunately, he continues to place obstacles in the path of families to access affordable healthcare."
